

Trabajo Final

Modelos Fundacionales

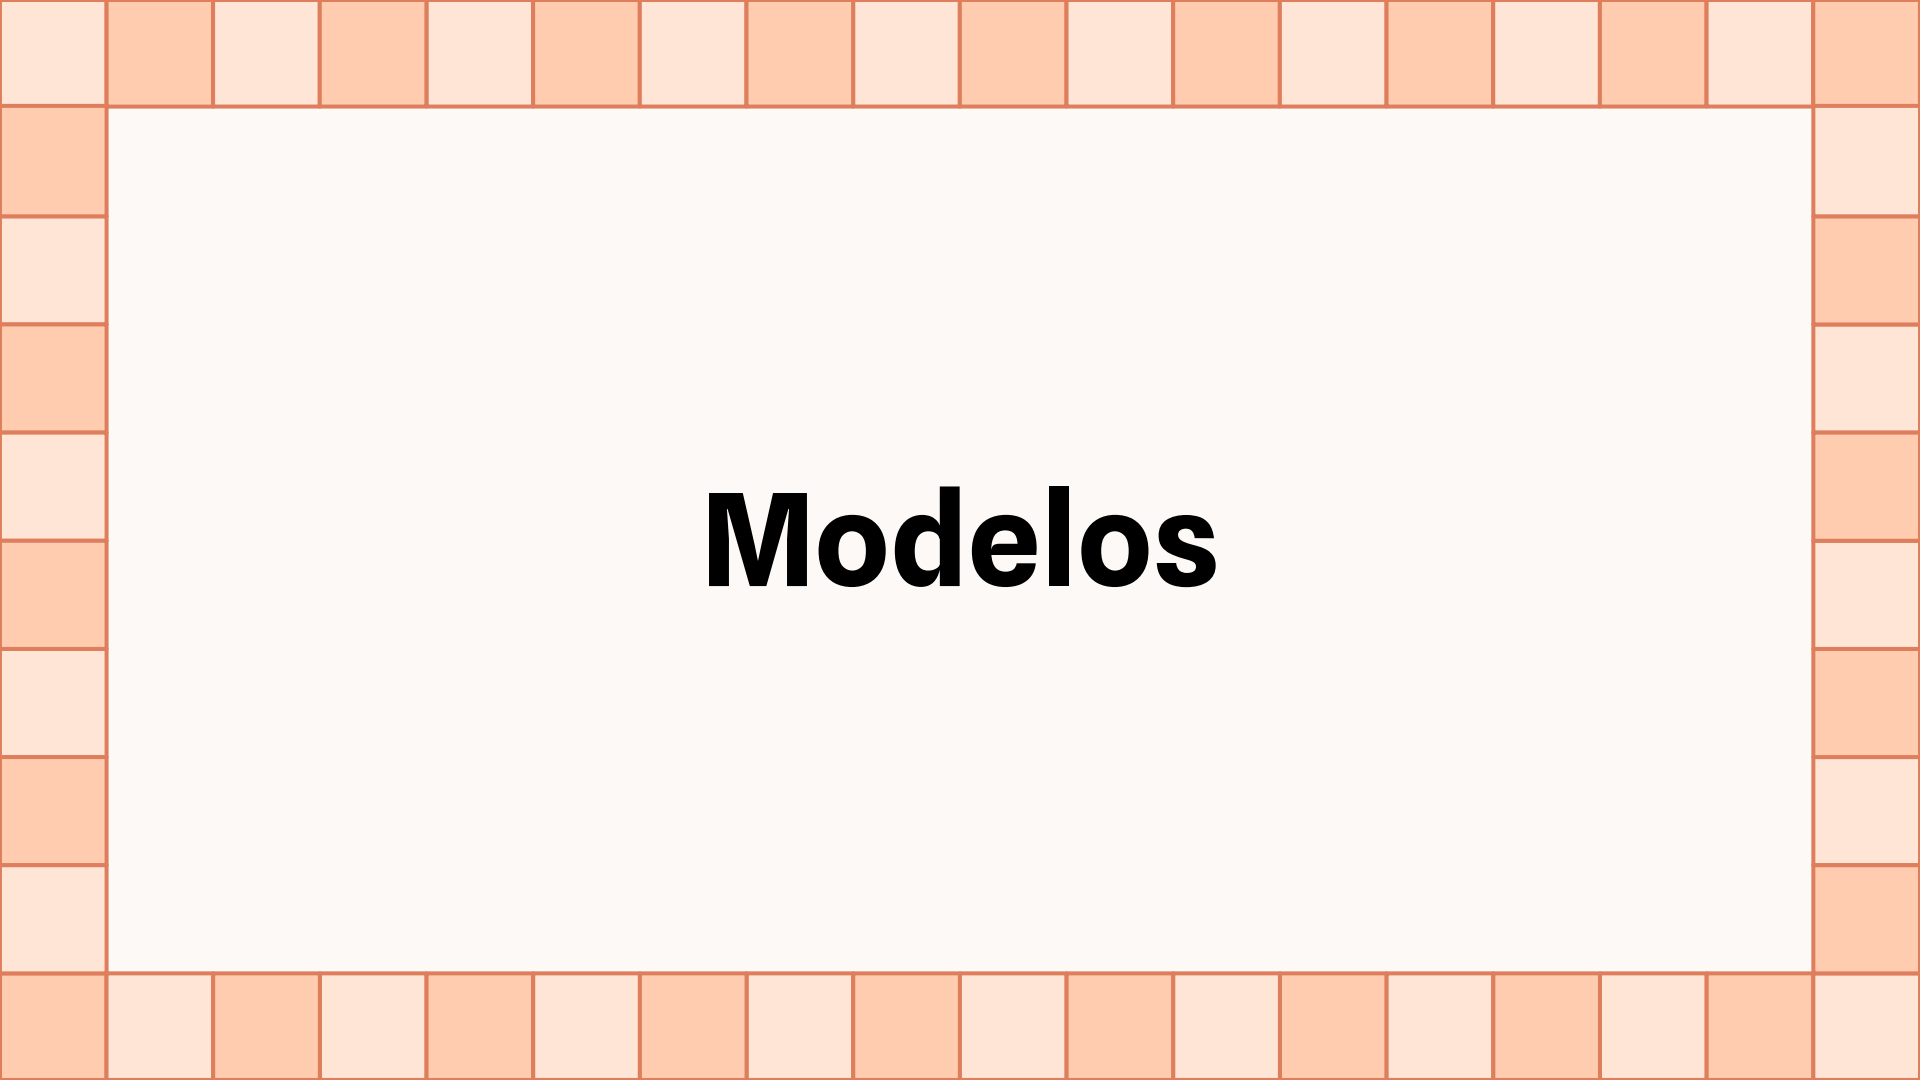

Objetivos

Explorar un modelo
de ML moderno.

Adaptarlo o utilizarlo para un
objetivo distinto al de
entrenamiento.

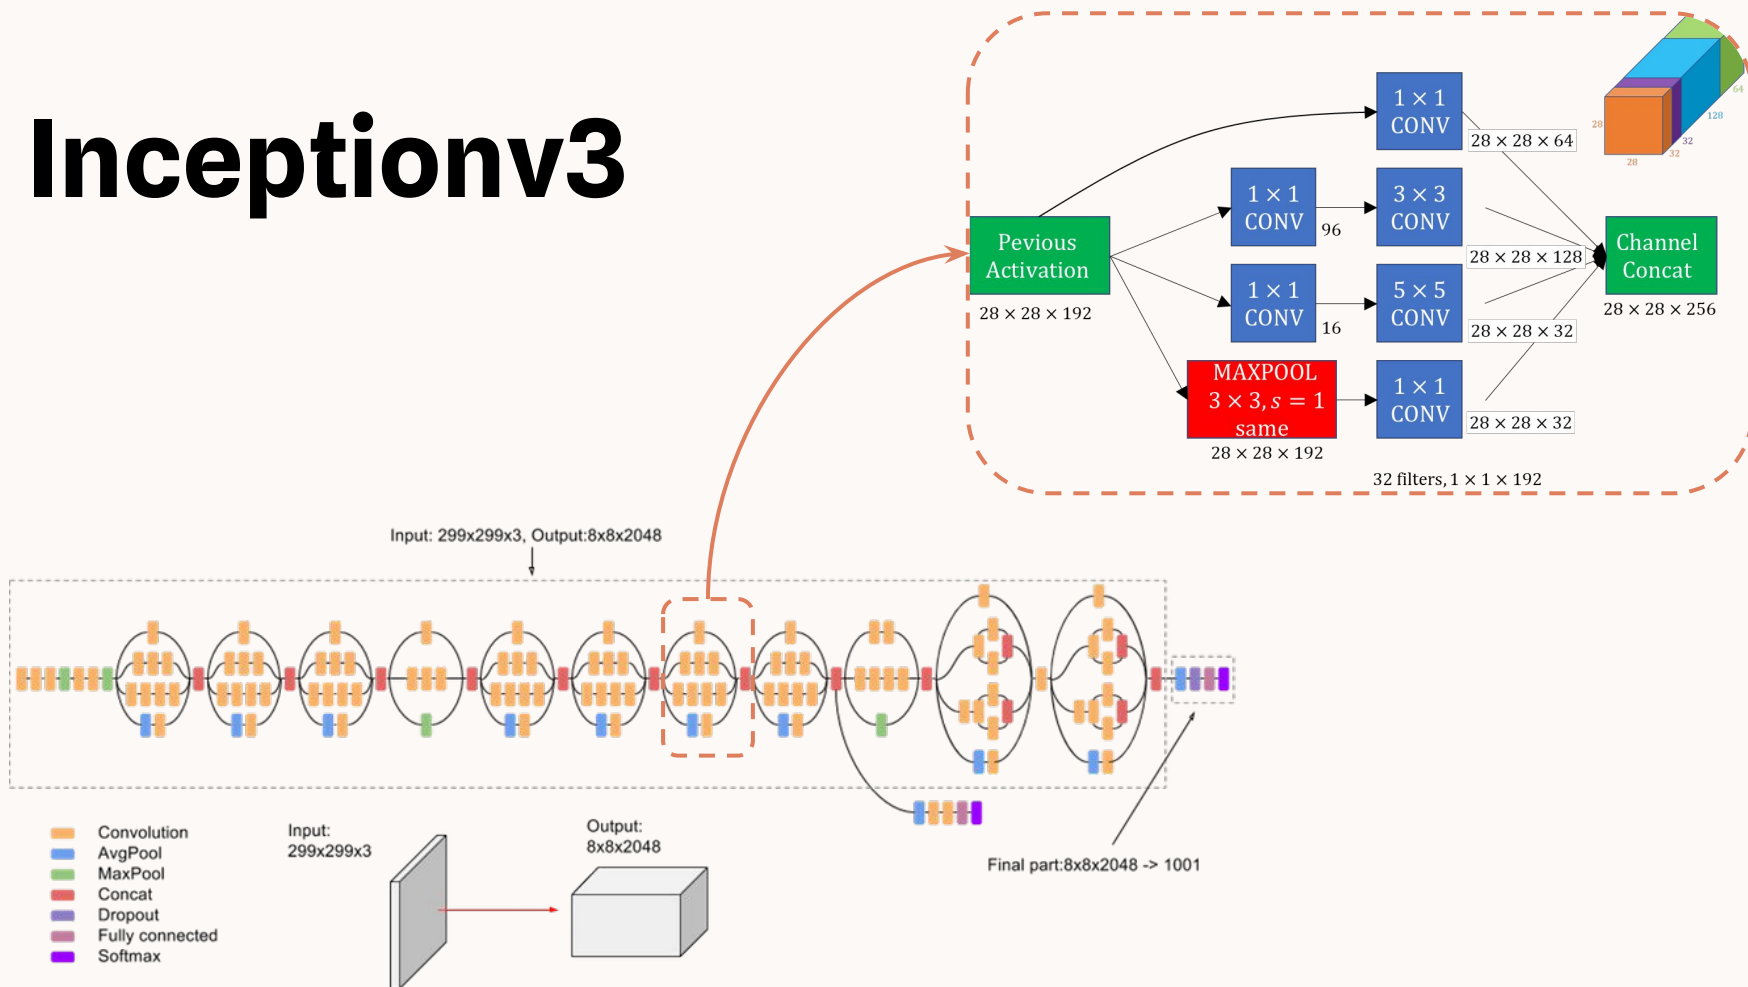

Probar,
cuantificar,
analizar,
repetir.

Sacar conclusiones.

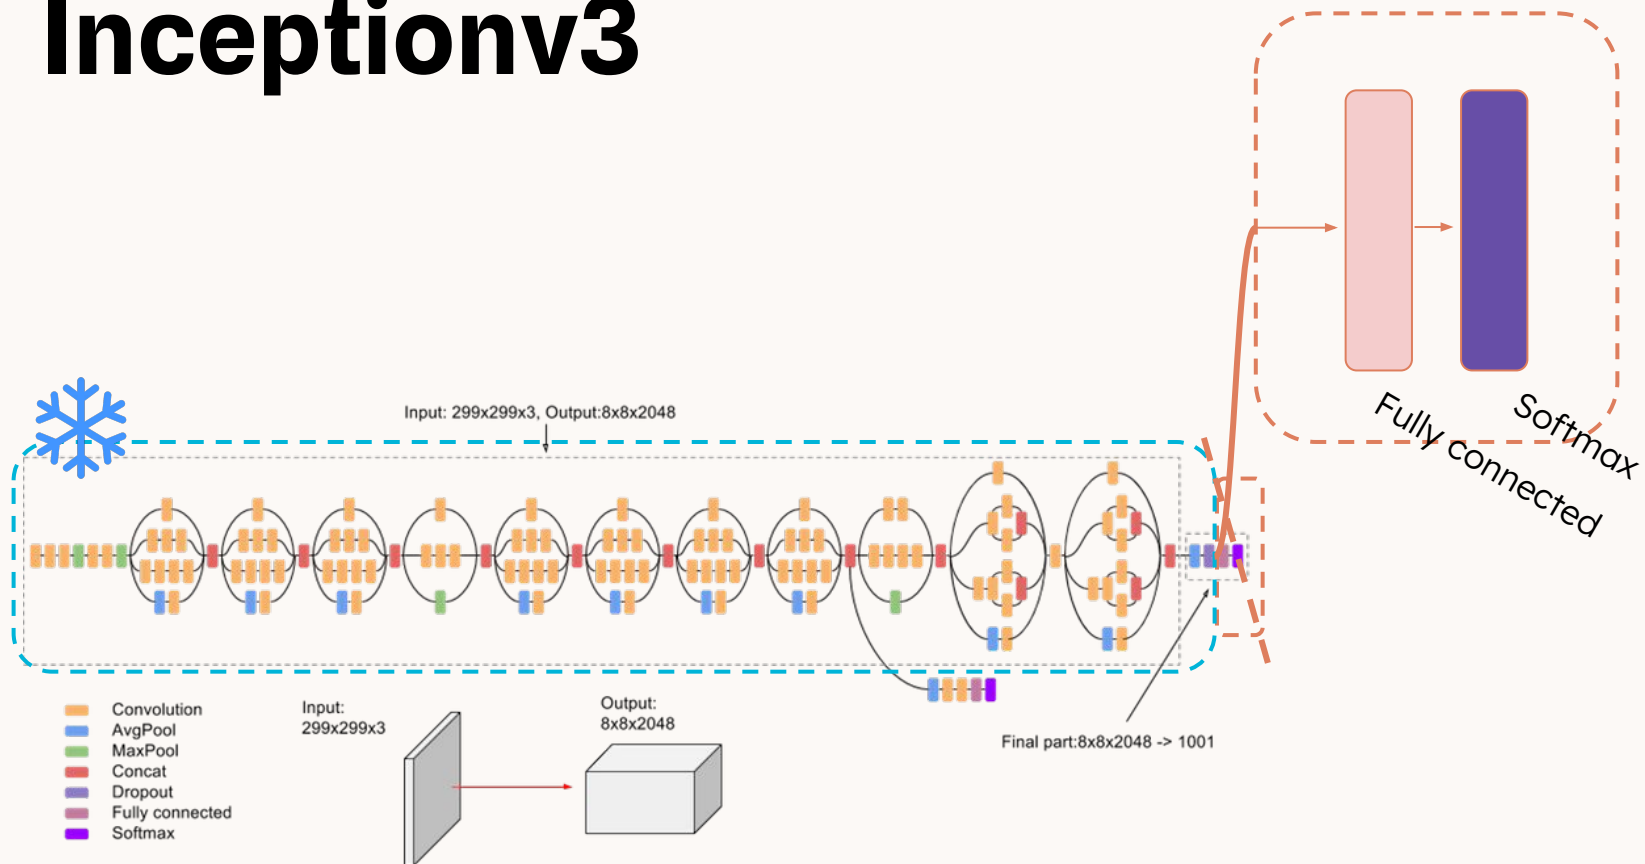

A decorative border composed of a grid of squares in two shades of orange, surrounding a central white area.

Hugging Face

How to use from the 🤗/transformers library

```
from transformers import AutoTokenizer, AutoModelForCausalLM

tokenizer = AutoTokenizer.from_pretrained("distilgpt2")

model = AutoModelForCausalLM.from_pretrained("distilgpt2")
```

Copy

Or just clone the model repo

```
git lfs install
git clone https://huggingface.co/distilgpt2

# if you want to clone without large files - just their pointers
# prepend your git clone with the following env var:
GIT_LFS_SKIP_SMUDGE=1
```

Copy

**In-Context Learning
con LLaMA**

**Zero-Shot Learning
con CLIP**

**Fine-Tuning de Modelos
con BERT**

**Transfer-Learning
con InceptionV3**

Presentación Inicial

17 de Junio

- Problema a resolver
- Dataset
- Modelo elegido
- Intuición inicial

Entrega

En Mesas de Exámen

- Descripción e interpretación del Modelo.
- Problema a resolver, datos a usar, metodología y resultados esperados.
- Experimentos y resultados obtenidos.
- Discusión de resultados.

The image features a central text element surrounded by ten decorative orange trapezoids. These shapes are arranged in a circular pattern around the text, with some pointing towards the center and others pointing away. The trapezoids vary in size and orientation, creating a dynamic, sunburst-like effect. The entire composition is set against a light gray background with a thin orange border.

¡A EXPLORAR!
